NEVADA STATE PARKS

<http://parks.nv.gov/smr.htm>

DAY TRIPS

Valley of Fire State Park

You can see some great sandstone formations as well as visible signs of ancient residents of the area. Early evening light introduces you to colors you never knew existed.

Grand Canyon

The park consists of 277 miles of the Colorado River and its massive erosional effects on the surrounding landscape. The Grand Canyon can be enjoyed from either the south or the north rims. The Grand Canyon is located about 250 miles from Las Vegas.

Red Rock Canyon

It is a scenic area of rock formations and desert with a 3,000-foot escarpment produced by a thrust fault. Red Rock Canyon has a Bureau of Land Management visitors center and is home to feral horses, wild burros, bighorn sheep, coyotes and a variety of desert plant life.

Bryce Canyon

The sandstone cliffs at Bryce Canyon will impress you with their peculiar colors. Take a hike down into one of the canyons and watch as birds soar high above the pinnacles that surround you.

Bonnie Springs Ranch/Old Nevada

An old western town in Red Rock Canyon, with a motel, petting zoo, shops, activities and western shootouts. If you want to see what the real Las Vegas was like this is your chance.

BMX Track

Race your cruiser over a 1500 foot long dirt track of turns and obstacles. If you like riding your bike around your neighborhood or on a homemade track or jumps, then you'll like this competitive type of racing.

Mt. Charleston

Reaches a staggering height of 11,913 feet, and it is the third-highest peak in Nevada.

Zion National Park
